

The 9th International Symposium on Signal, Image, Video and Communications

ISIVC 2018

ISIVC is a high-level international forum and an important event for researchers, engineers and scientists from around the world to present and discuss recent advances, technologies and applications in the fields of Signal, Image, Video Processing and Communications. This year a particular attention will be paid to a novel track focused on Data Science and applications. The symposium will feature world-class speakers, plenary, regular, poster and special sessions.

This edition is dedicated to the precious memory of the late Professor Driss Aboutajdine as a sign of fidelity and recognition.

November 27-30, 2018
